

PLM Technical Consultant for Enterprise PLM Solutions Implementation

Position Purpose:

Our PLM Technical Consultants provide customers with advanced business process knowledge and technical product expertise in targeted industries. Specific business process, business process reengineering, best practices, consulting methodologies and/or domain knowledge in any of our targeted industries as well as experience installing, deploying, implementing, configuring, and customizing Enterprise PLM solutions are highly valued. This is a great opportunity for an individual looking to work on a world class PLM Consulting and Services organization.

Position Responsibilities:

- Provides customers with advanced technical product knowledge for ENOVIA applications including installation, configuration, customization, and on-going maintenance.
- Provide recommendations and create specifications for ENOVIA application configuration and customization.
- Works closely with customers to resolve complex issues associated with ENOVIA implementations.
- Participates in meetings with customer's technical personnel and company's sales personnel to help in answering advanced product questions.
- Works closely with technical personnel by assisting in the development of product specifications.
- Evaluates and summarizes weekly activity reports for management, identifying successful support activities, problems or issues and any follow-up action required.
- May be required to create software, scripts, and/or work with database applications.

Qualifications:

- Requires a minimum of BS Degree in Information Technology or a Related Industry
- At least 3 years experience in ENOVIA applications
- At least 3 years IT, system administration, and/or programming experience
- Experience implementing a PDM/PLM solution within this industry is a plus
- Experience with Data Management concepts, PDM, PLM
- Good writing skills with experience documenting customer requirements and creating product specifications
- Good presentation, support and consulting skills.
- Speak fluent English
- Able to travel 50% to 70%
